# POLYTALON CLOSED LOOP —

The biggest advantages of PU are certainly its weight, freedom of design, safety and sustainability. The biggest disadvantage of PU compared to PE is certainly the lower abrasion resistance and the slightly higher price. - We are aware of this. But now we are proud to offer the solution to this problem: The Polytalon Closed Loop. With our in-house coating system, we give worn holds a second life. In this way, we combine the advantages of PU with the durability of PE. And the longer the product life cycle, the lower the price.

# REFERENCES —

## JOCHEN PERSCHMANN

→ National Routesetter, National Team Trainer

"The Bats and Saharas are super easy to control, ideal for compstyle bouldering and exciting tours. Also fun is the combo of Fatbat screw ons and dualtex macros, super for nice new-school moves and tours in all grades."

## CHRISTIAN BINDHAMMER

→ IFSC-Chiefsetter, CTO eXXpozed Climbing GmbH

"I am particularly taken with the whole Bat Series. A very versatile shape with dualtex and sensibly blockable. Ideal for creative route setting, even for very difficult tours."

## JUDITH GÜNTHER

→ Manager DAV Kletterzentrum - Reutlingen

"The holds from Polytalon are an absolute enrichment for our gym. Great shapes with high recognition value and coherently assembled sets offer lots of fun for our visitors and route setters. Fast delivery and uncomplicated and direct contact with the manufacturer - and everything "made in Germany".

## LUKE BRADY

→ World Cup Setter and Gym Owner

"I think the Bats are awesome, I like setting with them and people like climbing on them, too".
